

About Performance of the Action Plans and Self-Evaluation in the KAIZEN Report

We would like to share some ideas about KAIZEN Report with you.

1. Reviewing KAIZEN Reports

The Accredited School has been accredited in the full confidence that the School's Action Plans to improve the KAIZEN Issues found in the analysis of the SCR are promising. Since one of the aims of ABEST21 accreditation is to assure a substantial improvement of the educational quality to the stakeholders, we need to check the progress of the accredited schools on their Action Plans found in the analysis on the SCR, and provide a status report to the stakeholders. The School is responsible for assuring its stakeholders of the quality of education.

2. Performance of the Action Plans and Self-Evaluation described in the KAIZEN Reports.

The KAIZEN Report requests accredited school to describe their progresses which have shown how well action plans were performed according to the schedule shown in the Self-Check/Self-Evaluation Report. Also, the report requests the school to describe their outcome that the school obtained by implementing each action plan. When the School did not receive any achievement by implementing an action plans, the School can describe the results as it were. The performance of the Action Plans should be described in the following sequence.

Chapter One: Internal Quality Assurance

Chapter Two: Mission Statement

Chapter Three: Educational Programs

Chapter Four: Students

Chapter Five: Faculty

Chapter Six: Educational Infrastructure

When the school has been accredited under ABEST21 Academic Unit-base Accreditation System, the School can describe their performance from the view points of the Academic Unit base not each program base.

Considering the recent accelerating change in environment, the school might have drawn up some new action plans after accreditation. In that case, the School should describe the annual progress about the new action plans using the column of "New issue to be improved" in

designated KAIZEN Report format
