*We wish you a Happy New Year 2022 !*

(The Practice of visiting Sengen-Shrine near Mt. Fuji at the Beginning of the New Year)

*In the 21<sup>st</sup> century, when the education research environment is becoming global and increasingly complicated, it is sometimes difficult to solve all problems on one's own. There are issues which can only be solved by mutual partnership among member institutions. Mutual partnership between member institutions will create an environment where the members can connect and support each other to solve the issues related to globalization. ABEST21 would like to contribute to "preparing the educational research environment to respond to the globalization."*
